

Having been in the Replacement Head category for Gas and Electric Trimmers for the past 15 years, please allow me to give you some tips on the Sharper Blade.

I was involved in the very first Replacement Head called Weed Terminator. From there, I was President of Grass Gator and then Weed Warrior. The last two companies can be seen in every major retailer in the country. Sharper Blade is a completely different unit than anything currently on the market.

All the units currently on the market are Replacement Trimmer Heads. These heads replace the line trimmer head that comes with the Power Trimmers. There are 3 Blade Plastic Replacement Heads; there are 3 Blade Heavy Duty Plastic Replacement Heads; there are 4 Line Replacement Heads; etc.; all for Gas Trimmers and almost exclusively for Curved Shaft Trimmers. Each time you wish to do a different job on the lawn YOU MUST CHANGE HEADS! In other words, if you have a 3 Blade Plastic Head on the trimmer and then want to do your driveway, you MUST change to a 4 line head because the Plastic Blades will shatter when they hit the driveway or curbs. If you have an Electric Trimmer, you must purchase a completely different head that fits only Electric Trimmers.

The Weed Wacker Blade from Sharper Blade does everything. You can cut grass; cut shrubs; trim your curb and driveway, etc, etc; ALL WITH ONE BLADE THAT DOES NOT HAVE TO BE CHANGED TO DO VARIOUS FUNCTIONS. AND IT FITS GAS TRIMMERS - BOTH CURVED AND STRAIGHT SHAFT AND WILL FIT TORO ELECTRIC TRIMMERS PLUS OTHERS!!!!

No head on the market can do this. So, if someone wants to cut grass - they buy one head at \$10.00 retail. If they want to trim, they buy a different head at \$10.00 retail. If they want to cut Heavy Grass/ small shrubs, etc; they buy another head for at least \$10.00 retail; if they want to use Electric Trimmers - a different head. ONE SHARPER WEED WACKER HEAD DOES IT ALL!!!!

In addition, we have an Edger Blade for serious edging that FITS ELECTRIC AND GAS TRIMMERS; a lawn mower blade that adjusts for decks 17" to 22". Plus we will have a combination Electric Trimmer and Weed Wacker Blade never before seen in this industry.

This product has no comparison. If someone says "oh another Replacement Head - the answer is no - NOT another replacement head. You have one single head that does the job of ALL the other heads on their shelves.

The Sharper Blade makes all other units ancient. This is the way of the future for this category, which has not truly changed in the past 15 years. Sharper Blade is the future of this business. The consumer NEVER HAS TO CHANGE HEADS AGAIN WITH SHARPERBLADE.

Thank you.

Stan Silver
